To all our dedicated and loyal members, WELCOME to the printed BOI for 2019-2021.

We continue to condense the printed version of the Book of Information (BOI) including essential items that you will need when you are away from your computer. More information has been moved to our website ffgc.org. A copy of this printed version will also be available online, but more importantly much of what was originally in the printed version are now in appropriate locations on the website. We expect to always print some form of the BOI to make it available for distribution to members of the Board of Directors, District Directors, Club and Circle Presidents, and interested members, but we will also continue to evaluate what needs to be included in print.

There are important considerations for moving much of what was in the printed version of years past to our website. We realize a substantial savings in cost for producing the printed version, but of greater value is the ability to constantly update information on the website. We no longer need to wait until a supplement is printed to update and correct information. The information found at ffgc.org can be constantly reviewed and edited as often as we wish. However, if the online information is not easily found, it diminishes in value. I urge you to become very familiar with the wealth of information found online and provide us with feedback if you cannot find what you need.

If you do not see in the printed version information you feel MUST be included, we will be receptive to reviewing your requests for the supplement. However, please be flexible, and realize in this rapidly changing cyberworld, we need to exercise patience and understanding about our goal.

As always FFGC understands and listens to our members. On behalf of FFGC we thank you for your dedication to our organization. If we all work together, we can make a difference.

Al Latina
2019-2021 President
Florida Federation of Garden Clubs, Inc.

FLORIDA FEDERATION OF GARDEN CLUBS, INC.

The Florida Federation of Garden Clubs acknowledges the blessings members enjoy at the hand of the God of all gardens. We believe effort expended in conserving our natural resources, preserving our horticulture heritage, protecting the environment and training youth in these and related fields is but a small token we pay for the privilege of occupying space on earth.

Garden clubbing is a great exponent of give and take. In sharing what we grow, know and show, we make it a heartwarming, rewarding way of life. In beautifying the landscape as envisioned by our founding members and participating in community development, we seek favor in the sight of God and mankind.

All gardens have been cherished since the Master Gardener created the first in Eden. In them we find the bliss of growing, the glory of achievement, the splendor of creative beauty and, more importantly, the tranquility that permits hearing our Creator’s voice and drawing strength from Him … today, tomorrow and always.
