

Tri Council Report

Environmental Liaison

President – Gloria Blake

Jan. 9, 2019

Since our September meeting things have been pretty quiet for this Council. The weather is cooler and the red tide and blue green tide have diminished. However, our weather has been very strange this past year with the amount of hurricanes, fires, earthquakes, etc. So much so that even President Trump issued a warning about global warming.

The Environmental Alerts Chairman, Inger Jones, has been doing a wonderful job of keeping us aware of happenings in the environment through e-mails. Thank you Inger.

As far as Environmental Schools there is still only one planned. It will be hosted by the New Smyrna Beach Garden Club. The first class will be held on March 19-20, 2019, and the second class on Nov. 3-4, 2019. Please get in touch with Nancy Richards, Environmental Schools, Ch. if you know of anyone who will host an Environmental School. Let's get going and get some on the schedule.

Summary: The next Environmental School to be held will be in New Smyrna Beach, with the first class held on March 19-20, 2019, and the second class on Nov. 3-4, 2019. Please get in touch with Nancy Richards, Environmental Schools, Ch. if you can host an Environmental School.
