

Advanced Floral Design Study

Advanced Floral Design Study is a series of three units in advanced floral design that will take students to the next level of Floral Design. The lectures and demonstrations concentrate on the knowledge and mechanics needed to create unique and award winning Creative Floral designs.

The Floral Design units are taught by National Garden Club Master Judges and FFGC Floral Design Instructors. All instructors are recognized for their extensive knowledge and experience in floral design. They have competed in flower shows and present workshops and programs throughout Florida and other states. Their designs regularly appear in The Creative Floral Arrangers of The Americas (CFAA) *Design Dimensions* magazine as well as the FFGC and NGC Calendars.

Our instructors create friendly and engaging environment to learn floral design. Each unit consists of a lecture and demonstration during the morning. The instructor will create floral designs as she explains the required materials and techniques. After lunch students create their own designs, receive feedback from their instructor, and share their designs with new friends.

After completing Floral Design Units 7,8 & 9 many ask, "Where can I learn more? Attend and enter a Flower Show. FFGC offers Flower Show Symposiums, Short Courses, Fun with Flowers, Flower Show Judges School. All are welcome to attend these courses of study either for credit or audit.

Advanced Floral Design
